

OPERATING ROOM

PRODUCT APPLICATION

Supply Venturi FX

- Low minimum pressure operation
- Closed-loop airflow control and measurement
- Calibrated on NVLAP accredited test stations (Lab Code: 201067-0)

Pace™

- Pressure or volumetric offset control strategies
- Airflow control utilizing Venturi Valves, Venturi FX Valves or Terminal Units
- BACnet MS/TP

Integrated Reheat Coil

- Factory mounted transition
- Coil access door

Multi-Variable Monitor

- 7 or 15 in. high resolution touchscreen display
- BACnet MS/TP or IP
- View multiple room environment points at a centralized location

Thermostat

- LCD or blank-face options
- Optional humidity or CO₂ sensing
- Optional connection to room level network for commissioning

Exhaust Venturi FX

- Unique airflow measurement prevents dust/lint contamination from degrading airflow reading
- Low minimum pressure operation
- Calibrated on NVLAP accredited test stations (Lab Code: 201067-0)

Pace™

- Pressure or volumetric offset control strategies
- Airflow control utilizing Venturi Valves, Venturi FX Valves or Terminal Units
- BACnet MS/TP

Room Pressure Sensor

- Maintenance and calibration-free sensor technology
- Accurate to 3% of reading
- Designed to prevent buildup of airborne particulates

Room Pressure Monitor

- Elegantly designed with the industry's highest resolution
- Innovative 180° LED room status indicator
- Pressure monitoring and optional reporting of room environment points for up to three spaces
- BACnet MS/TP
